

**TAKE THE ELECTRIC CAR.—**With clear skies to-day the ride out to Fulton Park over the line of the Metropolitan railway will be especially enjoyable. It is desired here to call the special attention of the people to the views of Fulton Park for their consideration. Many improvements are now being made in this property, and it certainly commands one of the most striking views to be obtained from any point in the vicinity of the city. G. A. Steul & Co. are sole agents for the handling of Fulton Park, and they will furnish free transportation to and from the property to all intending purchasers. Both residents and lot owners at Fulton Park are given a special rate of 3 cents to and from the city proper. An agent will be on the ground to-day to show visitors over the property, and a cordial invitation is extended to the public to examine into the merits of Fulton Park. \*
