

SURVEYORS AT WORK.—A party of surveyors are at work locating a southerly extension of the Metropolitan Railway Company's electric motor line from Fulton Park out through Palatine Hill addition, and Kilpatrick Bros. & Collins' tract to the cemetery, with Oswego and Oregon City in prospect. The tract of 85 acres purchased by Kilpatrick Bros. & Collins from O'Brien Bros., and which adjoins Palatine Hill addition on the north and west, is being platted under directions of Mr. R. E. Briggs, Kilpatrick Bros. & Collins' manager here, and will soon be put on the market.
